Message From Chairperson

Dr. Vaseem Khan,
Chairperson

This motivation and spirit have percolated up to the grassroot in the College, which is visible through a peaceful, positive environment with a passion for visible contributions. I could realize that faculty members are involved in additional college responsibilities and all the faculty members are utilizing advance educational technology very efficiently including interactive panels. It is a very positive signal for future as the upcoming generation is getting prepared strategically, which will reflect significantly in the upcoming years

Looking into the performance of college of in 2021, the first glimpse is that of a combined, cooperative and synergized spirit of growth and contribution. An effective leadership always involves and energizes the team for responsible and improved performance leading to organizational growth and development. This is the key of enhanced performance of college, in which the faculty members felt motivated to stretch for better performance with a quest of excellence.

This motivation and spirit have percolated up to the grassroot in the College, which is visible through a peaceful, positive environment with a passion for visible contributions. I could realize that more than 100 faculty members are involved in additional college responsibilities and all the faculty members are utilizing advance educational technology very efficiently including interactive panels. It is a very positive signal for future as the upcoming generation is getting prepared strategically, which will reflect significantly in the upcoming years.

The newer initiatives on mass scale such as skilling and practice unit for all students is a praiseworthy initiative of the College. I have personally visited the unit and could see the confidence and motivation of the students. I have no doubt that the College will emerge as a globally visible entity to fulfil its mandates in excellent manner.

Message From Principal

In this existential journey of the College, year 2021 will be eulogized for capacity building of faculty members for online teaching and pedagogical reforms to suffice the requirement of alignment with new educational technology. The College could contribute significant output and outcomes with two mantras - the first was a positive, challenging and motivating system to contribute up to the level best in all directions and the second was a broad-based, democratic initiative to involve maximum faculty members for bringing an overall development in the College to generate synergy

The College is a pious place. At the very onset, it emerged as a point of origin for innovation and improvisation in research and education in the Rajasthan. Since then, the College has played a seminal and significant role in upbringing excellence across into the University with undaunted and responsible contribution of the illustrious faculty members.

year 2021 will be eulogized for capacity building of faculty members for online teaching and pedagogical reforms to suffice the requirement of alignment with new educational technology. The College could contribute significant output and outcomes with two mantras - the first was a positive, challenging and motivating ecosystem to contribute up to the level best in all directions and the second was a broad-based, democratic initiative to involve maximum faculty members for bringing an overall development in the College to generate synergy.

This is how a huge number of faculty members stretched and extended their arms for multiple initiatives which could result in infrastructural, academic and overall improvement. I trust that the upcoming years will be much more productive and spectacular in terms of teaching-learning, co-curricular and extra-curricular activities, research, awards and cheers as well as mass scale skilling of students. I put my sincere words of cheers and appreciation for all illustrious members of college who genuinely deserve appreciation and accolades for their pious and positive intentions in favour of upsurge of humanity.

Institution Vision & Mission

RNT College was founded in year 2002. It is an altruistic organization working for the social upliftment through high quality education which may produce not only professionals, but really good human being cherishing practicing and propagating moral, ethical and spiritual values in their thought, speech and action. The guiding principle of the society is to serve the needy and the suffering because as Tagore said: "Here is thy footsore and there rest thy feet where live the poorest and lowliest and lost."

Our Vision

- To nurture thought leaders and practitioners through inventive education.

Our Mission

- Focus on inventive education by offering practical, innovative and technology driven programs.
- Develop passion for learning and creative thinking and values in rapidly evolving economic and social environment.
- Contribute significantly to growth by preparing graduates with high mindset.
- Build intellectual capital through faculty development, research, consultancy and publication.
- Develop alumni network of mutual benefit and keep alumni update through continuous learning and meeting.

Our Values

- Breakthrough Thinking – We foster academic rigor in an environment conducive to innovation.
- Result Oriented, Process Driven work Ethic – We adopt dynamic quality processes to ensure accountability and exceptional performances.
- Passion – The soul of RNT blossoms in our heart, mind and body.
